

FOR IMMEDIATE RELEASE

Los Angeles Metro Partners with Zipcar for More Car Sharing Locations on Transit Lines

LOS ANGELES, May 29, 2015 – In an effort to help enhance mobility, provide Los Angeles transit customers with more transportation options and improve first mile-last mile connectivity to Metro stops, Zipcar, the world's leading car sharing network, and the Los Angeles County Metropolitan Transportation Authority (Metro) have entered into a partnership to provide vehicles for hourly or daily reservations at ten Metro park-and-ride locations.

Twenty Zipcars will be available, two at each of the ten locations, providing residents, businesses and visitors with access to vehicles along busy transit corridors.

"Angelenos should have the freedom to explore transportation alternatives, and this partnership with Zipcar means more options and convenience for Metro customers," said Metro Chair and Los Angeles Mayor Eric Garcetti.

Zipcar allows members to reserve a car by the hour or the day. Membership starts as low as \$7 per month and members can choose vehicles such as sedans, hybrids, luxury vehicles and cargo vans.

"For years Zipcar has served as a convenient way to get around Los Angeles, and now, with this partnership with Metro, Zipcar can also serve as a way to get out and explore beyond the city limits," said Zipcar Regional Vice President Dan Grossman. "The partnership with Metro allows our members to have access to more cars in even more places making it easier than ever to live car-free or car-lite."

Zipcar will be available for reservation at the El Segundo lot, Indiana parking lot, La Cienega/Jefferson, Lincoln/Cypress, North Hollywood south lot, Pierce College, Universal City north lot, Van Nuys, Westlake/MacArthur Park lot and the Willow Street lot.

Zipcar gives its members on-demand access to a variety of cars in hundreds of cities and colleges and university campuses worldwide as well as major airports throughout North America and in Europe. With cars available 24/7 for reservation via Zipcar's mobile app, through www.zipcar.com, or over the phone, Zipcar is a smart transportation option for those who only need a car by the hour or by the day. Each reservation includes gas, insurance and 180 miles of driving per day.

About Zipcar

Zipcar, the world's leading car sharing network, has operations in urban areas and college campuses throughout Austria, Canada, France, Spain, Turkey, the United Kingdom and the United States. Zipcar offers more than 50 makes and models of self-service vehicles by the hour or day to residents and businesses looking for smart, simple and convenient solutions to their urban and campus transportation needs. Zipcar is a subsidiary of Avis Budget Group, Inc. (NASDAQ: CAR), a leading global provider of vehicle rental services. More information is available at www.zipcar.com.

About Metro

Metro is a multimodal transportation agency that is really three companies in one: a major operator that transports about 1.5 million boarding passengers on an average weekday on a fleet of 2,000 clean air buses and six rail lines, a major construction agency that oversees many bus, rail, highway and other mobility related

building projects, and it is the lead transportation planning and programming agency for Los Angeles County. Overseeing one of the largest public works programs in America, Metro is, literally, changing the urban landscape of the Los Angeles region. Dozens of transit, highway and other mobility projects largely funded by Measure R are under construction or in the planning stages. These include five new rail lines, the I-5 widening and other major projects.
