## **BUDGET TRUCK RENTAL CELEBRATES THREE YEARS AS THE EXCLUSIVE PROVIDER OF GPS NAVIGATION SYSTEMS FOR ONE-WAY MOVES AND COMMERCIAL CARGO TRANSPORT**

User-friendly devices identify truck routes and enable hands-free calling

**PARSIPPANY, N.J., April 14, 2011** – This month, Budget Truck Rental, the only consumer truck rental company to offer GPS navigation devices, celebrates the three-year milestone of offering *where2*<sup>®</sup> GPS units for rent. *where2* devices can be used in any Budget truck, from cargo vans to 24' trucks, and with any type of rental, including one-way, local and commercial rentals.

"Moving can be a stressful time for people and the occasional truck renter may have no idea that trucks are prohibited on some roads," said Joe Ferraro, senior vice president of local market for Avis Budget Group, parent company of Budget Truck Rental. "*where2* helps ensure that drivers safely get to their destination."

With guidance by Garmin<sup>®</sup>, *where2* offers Budget Truck Rental customers an array of navigation features, including truck routes and local points of interest such as ATMs, hotels, restaurants and gas stations, a simple user interface, three-dimensional maps, audible turn-by-turn directions spoken in multiple languages and Bluetooth hands-free calling capability.

"Truck renters who are not able to take the proper route can encounter police citations for driving on roads where trucks are prohibited," said Mr. Ferraro. "Another risk is the potential for larger trucks to get stuck trying to pass below older low bridges. By following the truck routes that our *where2* units offer, renters can relax and concentrate on reaching their destination safely."

In addition to *where2* GPS devices, Budget Truck Rental offers customers moving supplies and professional knowledge to make moving fast and easy. Budget Truck dealers are ready to provide assistance to customers to select the proper truck for any use. Budget Truck Rental also boasts one of the cleanest and best-maintained rental truck fleets on the road. Vehicles undergo a 10-point quality inspection to ensure proper fluid levels, tire pressure and other necessary elements for a reliable, safe rental. All Budget trucks feature automatic transmissions and have free 24/7 emergency roadside assistance.

For more information or to make a reservation, customers should visit [www.budgettruck.com](http://www.budgettruck.com), call 1-800-GO-BUDGET or contact their local Budget Truck dealer.
